Engineering Department

Dear Property Owner:

At the 2019 Annual Town Meeting, the Town of Acton voted to approve funds for a survey and feasibility evaluation for the West Acton sewer project. You are receiving this letter because your property is in the potential sewer area (blue properties on the attached map) **or** you are in an area where the project may be extended if it's feasible. We are informing you of upcoming surveying work occurring this summer.

Starting this month (June), surveyors will be working within the street "right of way" (ROW) and adjacent areas. For potential future connections, the surveyor may be locating the front exterior footprint of your house and trees within or abutting the ROW. A wetland scientist will also be flagging wetland areas adjacent to the ROW. See the example below.

Surveyor:	Lighthouse Land Surveying LLC
Wetland Delineation:	EcoTec, Inc.

Please contact me at the Acton Engineering Department at (978)929-6630 or via email at engineering@acton-ma.gov if you have any questions or comments concerning this sewer project or upcoming work. The project website is located at: <https://www.acton-ma.gov/645/West-Acton-Sewer> where you can get updates on the project. Thank you in advance for your attention.

Sincerely,

Paul Campbell
Town Engineer
