**Subject:** Boston Edison Petition – Martin Street at Stow Street

---

We have reviewed a petition from the Boston Edison Company d/b/a NStar Electric and Verizon New England, Inc. to relocate an existing pole on Martin Street (pole #34/16). The reason for the relocation is to relocate this pole so that it is in-line with the other utility poles on Martin Street. Utility pole #34/16 needs a push brace in order to keep the pole from leaning towards Jones Field due to the utility wires. We have spoken to the Tree Warden about the issues with the existing trees along Jones Field. The Tree Warden believes the trees are small enough that they can do some directional pruning on the trees to resolve the issues with the wires within the tree branches. We do not foresee any problems with granting this petition.
