Subject: FW: Formal Dedication of PSF

Please schedule this topic under Selectmen's Business and include a copy of this correspondence. Dore' has responded, agreeing with the date. Peter has also responded reminding me that Oktoberfest is also scheduled for that date and suggesting that we take care to be sure not to schedule the time in conflict with Oktoberfest events. We need the Board to discuss this Monday and determine the date and time they prefer.

Subject: RE: Formal Dedication of PSF

Dore':

I have confirmed that our work will be reasonably complete by the last weekend in September (9/24 - 9/25). I have also spoken with Trey Shupert to see if we could coordinate this event with his schedule. Trey has indicated that he would try to make any date we select but September 24 would work best for him. Unfortunately, Dean has spoken with Brian Humes and Brian will not be available that weekend. He will be available the following weekend, October 1-2. It's a toss-up but we stand a better chance of having both of these major players available for an October 1 Grand Opening. Accordingly, staff recommends Saturday, October 1.

I am not aware of other potential conflicts with this date so, by copy to the rest of the Board, I am asking whether or not this date suits Board members.

Regards,
Don

Don,

I would like to receive a staff recommendation as to the suggested date for a formal dedication and public viewing of the new Public Safety Facility, sometime after mid-September, depending on the relevant logistical considerations.

Once such a date is set I intend to then schedule a final "wrap up" PSFBC meeting shortly prior to that date to close out that process and commit to the minutes lessons learned.

Regards,

8/5/2005
