**Subject:** Boston Edison Petition – UP #31/133A at the Public Safety Facility

---

We have reviewed the petition from the Boston Edison Company and Verizon New England, Inc. for the addition of a new utility pole (UP #31/133A) on Main Street in front of the Public Safety Facility. The new utility pole is necessary to reduce the span distance problem between utility pole #31/133 and utility pole #31/134. Utility pole #31/133 was relocated to accommodate the new Public Safety building driveway. This increased the span distance between the utility poles. As a result, the lowest wire (Verizon) on the utility poles is very close to minimum height limit.

We have spoken to the Director of Municipal Properties regarding the ongoing construction and site work at the Public Safety building. He is aware of this petition and he recommends granting the new pole location.

We do not foresee any problems with granting this petition.
