Acton Tax Rate

Board of Selectman
Town Hall
472 Main Street
Acton, MA 01720

We the undersigned residents of Acton request that you consider returning to the Dual Tax Rate for the town. That is, a lower rate for residential property than for commercial and industrial properties. Even though 80% of assessed property is residential, this tax break would help residents who have been inundated with overrides and rising cost of living (gasoline prices have doubled in this past year). The majority of the surrounding towns have a Dual Tax Rate. Acton should keep in step with them.
