BOARD OF APPEALS
(FORM 4)
PETITION FOR A SPECIAL PERMIT

June 21, ~~19~~ 2007

I/We hereby petition the Board of Appeals for a public hearing and a special permit under Section 83.3 of the Zoning By-Law, as provided by G.L. Chapter 40A, Section 9 to allow:

...removal of the existing non-conforming and structurally-damaged (see attached photos) garage and replacement with a new foundation and new garage plus workshop structure. The new structure will extend 6 feet more eastward (forward) and 8 feet more westward (backward) than the current footprint, but no closer to the side property line than the current footprint and the 14.6-foot closest setback (vs. the 20 foot R-8 zoning side setback requirement). The Proposed Addition depicted on the Plot Plan (dated June 14, 2007) is revised by us such that the garage north wall is moved 0.3 feet closer to the existing house, and the rear and front corner setback distances are 17.2' and 14.6', respectively.

The new addition will also include unfinished storage above the garage area, as well as a new wheelchair accessible bathroom and laundry area in the current breezeway and closet/storage space above the breezeway. These renovations will make the house more accessible as we age. Our plan is to spend our elder, retirement years in our home in Acton.

We are requesting a special permit and/or a variance, as the board deems necessary.
