Please join The Green Roundtable for a presentation on local, state and federal green building policies and programs. There are a variety of new governmental initiatives in Massachusetts that are coming in to force. Come learn about the interwoven policy and programmatic regime from officials at every level of government. Susan Studlien, from the US EPA will discuss national efforts to promote green buildings and how that is impacting New England and Massachusetts in particular. Eric Friedman, Director of Government Leading by Example Programs at the Massachusetts Executive Office of Energy and Environmental Affairs (EOEEA), will discuss how the government of the Commonwealth is positioning itself to be a leader in green design and sustainable development. Finally, James Hunt, Chief of Environmental and Energy Services from the City of Boston, will discuss the recent green building policies adopted by Mayor Menino and will outline how they are being implemented within the city.

* AIA members, bring your cards or member numbers. One AIA Continuing Ed Credit and one general CEU will be offered for this roundtable!
