Dear Commission Members:

The purpose of this letter is to respond to Mr. Sawyer's letter of November 26th.

The plans and supporting documents pertaining to this matter are those that served as a basis of the Superseding Order of Conditions issued by DEP.

It is our opinion that as the proposed wetland crossing has now been determined to be a limited project under Section F4.4 of the Bylaw and as the proposed alterations will not adversely impact the Purposes of the Bylaw the Commission must issue an Order of Conditions properly regulating the proposed alterations.

There are no known "endangered species" on or in the environs of the site and the suggested requirement that our clients be further delayed and that they pay for a search for something that probably does not exist is unwarranted.

Very truly yours,
 Mark T. Donohoe, PE
