

Application # 0809

TOWN OF ACTON
HISTORIC DISTRICT COMMISSION
472 Main Street, Acton, MA 01720

APPLICATION FOR CERTIFICATE

Applicant Lothrop Mill, LLC Telephone 508-331-4979

E-mail _____

Address 544 Mass. Ave, Acton

Property owner and address _____
(if different from applicant)

Location of Work 83,85,87 River Street District: Center _____ West _____
No. Street South X

Pursuant to Ch. 40C of the General Laws of Massachusetts, application is hereby made for issuance of a Certificate for work within a Local Historic District.

Description of Proposed work: (See instructions for additional information required)

- All wood windows to be installed for new construction at 83,85,87 River Street
- Windows will be JELD-WEN all wood windows with 6 over 6, SDL, and half screens

The undersigned hereby certifies that the information on this application and that any plans submitted herewith are correct, and constitute a complete description of the work proposed.

Signature of applicant *Edmund Flamy* Date 5/19/08

Application received by *[Signature]* for HDC. Date 5/17/08

Certificate approved by _____ Date _____
for Historic District Commission

Certificate of appropriateness not required (Certificate of Non-Applicability issued) _____

WELL-CRAFTED CONTENTS

Extruded frame and sash

To provide greater strength, Premium Wood Sitrine EX windows and patio doors feature extruded frames and sash. This type of construction also ensures a uniform, architecturally correct look.

Clad-Wood exteriors

For steadfast protection from the elements, select our clad-wood windows and patio doors. They feature durable metal cladding, so they're appropriate for almost every climate and require minimal maintenance. In addition to delivering enhanced performance, clad-wood exteriors are available in a range of clad color finishes to complement any home (see the following page for details). These windows and patio doors include an integral nailing fin that adds strength and durability, while also ensuring installation is faster, easier and more secure.

Wood exteriors

With wood exteriors, you gain greater design freedom, because they can be painted any color you desire. They're available with or without factory-applied primer. This primer helps paint adhere to the wood. What's more, since all our windows and patio doors feature Auralast wood, there is a significant reduction in the amount the wood swells and contracts, so less maintenance is required.

Primed wood frames with clad sash

This option lets you enjoy both the natural beauty of wood and the vibrant endurance of metal cladding. Select any one of our clad colors for the sash, and then paint the frame a complementary or contrasting color. Like our primed wood option, the frames feature factory-applied primer.

JLD-WEN wood windows and doors made with Auralast wood have earned the Good Housekeeping Seal.

ENCHANTING CHOICES

Clad colors

Our windows and patio doors with clad-wood exteriors feature protective metal cladding with a baked-on finish that doesn't need to be repainted over time. We provide a number of clad color options, so you can pick a finish that will complement your home. The available colors, including our two newest options, (Arctic Silver and Dark Chocolate), are shown here*.

*Colors shown here may not match our clad colors exactly.

Simulated divided lites (SDL)

To achieve an authentic look, select our simulated divided lites (SDL). They feature grilles that are permanently attached to the exterior glass (aluminum for clad-wood exteriors, wood for primed wood exteriors), wood grilles adhered to the interior glass, and optional Light Brown or Silver shadow bars that are placed between the two panes of insulating glass. Grilles are available in 7/8", 1-1/8" and 1-3/8" sizes. We also offer 2-5/16" grilles for the classic look of a checkrail.

Full-Surround wood grilles (FS)

Our full-surround wood grilles can be removed for easy cleaning. These 7/8" grilles are positioned on the interior glass surface.

Grilles between the glass (GBG)

With grilles between the glass, you'll enjoy the look of divided lites without any upkeep. They are placed between the two panes of insulating glass. Select 5/8" flat or 23/32" or 1" contour metal airspace grilles in any of our clad colors.

Simulated Divided Lites (SDL)

Full-Surround (FS) and
KD Removable Wood Grilles**

Grilles between the Glass (GBG)

** Available on direct set only
