DECISION

08-05

Micmac Lane

2 FINDINGS and CONCLUSIONS

Based upon its review of the exhibits and the record of the proceedings the Board finds and concludes that:

- 2.1 The proposed subdivision is located within the Residence 8/4 zoning district and Affordable Housing Overlay District Sub-District A.
- 2.2 Significant portions of lot 1, lot 2 and lot 3 near Central Street; the southwest tip of lot 4; and the southwest portion of the Porter lot are located in Groundwater Protection District Zone 3. The remaining areas of the proposed subdivision are located in Groundwater Protection District Zone 4.
- 2.3 The Plan shows the proposed division of approximately 14.77 acres (provided that the Approval Not Required Plan signed by Roland Bartl for the Acton Planning Board on 12/28/07 is recorded at the Middlesex County Registry of Deeds) into five residential lots, and a +/- 678-foot long subdivision street, Micmac Lane, which intersects with Nashoba Road. Lot 5 has an existing residence on it. Lot 2, lot 3 and the Porter lot also have frontage on Central Street.
- 2.4 The proposed uses are allowed on the Site in accordance with the Acton Zoning Bylaw (hereinafter the Bylaw), including all overlay district requirements. The proposed lots do comply with the area and frontage requirements of the Bylaw, including all overlay district requirements.
- 2.5 The Applicant proposed to maintain the existing vegetation along the stone wall abutting 11 Wachusett Drive and 12 Wachusett Drive and retain the existing trees near 44 Nashoba Road from within the site to provide screening benefits for the established residential neighborhood to the south.
- 2.6 The Plan shows limits of clearing on lots. They are shown for illustrative purposes only. Actual limits of clearing may vary.
- 2.7 The Plan shows the proposed subdivision street located between two 24 inch trees. According to the Tree Warden's memo dated 9/25/08, the two 24 inch trees could be negatively impacted by the proposed subdivision street and eventually die; creating safety hazards and expenses to the Town. The two trees are public shade trees under Mass. General Law Chapter 87.
- 2.8 The Plan shows typical house and driveway locations on lots. They are shown for illustrative purposes only, except as specifically required herein.
- 2.9 The design of the proposed subdivision street is intended for approval under Section 10 of the Rules - Optional Residential Compound, which implies waivers from the Rules. The subdivision is eligible for consideration as a Residential Compound. The Applicant has submitted a "proof plan" to try to demonstrate that he could build a subdivision

street under the otherwise applicable requirements of the Rules. A Residential Compound is less intrusive to the neighborhood, preserves more of the natural environment of the Site, and helps preserve the present character of the neighborhood. The Plan, as modified herein, accomplishes these purposes of the Rules' Residential Compounds option.

- 2.10 Ways in Residential Compound subdivisions can be built to lesser design and construction standards than other streets in Acton. They are intended to remain private ways. This requires a legal framework for the maintenance and ownership of the private way. Furthermore, the Board needs assurances that the Town will not be asked to plow, maintain, or accept the private way in the future.
- 2.11 The Board solicited comments from various Town departments and has received such comments, which are listed in Exhibit 1.4 above. The Board considered these comments in its deliberations and made them available to the Applicant. They are restated herein as required plan modifications or conditions as deemed appropriate by the Board.

 - (b) include street address signs as an exception to section 5. SIGNS;
 - (c) add a reference to the Private Way Covenant and Maintenance Agreement including the recording information with the Middlesex County Registry of Deeds at the end of section 9. EASEMENTS;
 - (d) clarify in the language of section 12. SUBDIVISION OF LOTS what is meant by the phrase “nor shall any of the lots be changed or altered in any way”;
 - (e) rewrite section 3. TRAILERS, CLOTHELINES, ETC. and section 14. GARAGES ATTACHED TO DWELLINGS so the requirements are consistent regarding campers and recreational vehicles.
- 3.2.8 Assign, and label on the Plan, Micmac Lane street addresses to all five lots. Submit the addressing plan to the Acton Engineering Department for approval.
- 3.2.9 Amend General Note #32 on Sheet 7 to require the street name sign and post to be the same type as used by the Acton Highway Department.
- 3.2.10 On the Plan, modify the drainage system and design by:
- (a) extending a drain line from the existing Nashoba Road drainage system to Micmac Lane;
 - (b) showing a subdrain on Micmac Lane in the proposed cut section by Nashoba Road;
 - (c) adjusting the proposed elevations in the infiltration basin so that the inlet on top of the outlet structure is set below the bottom elevation of the emergency overflow swale.

- 3.2.11 Label at least one (1) temporary benchmark on the Plan.
- 3.2.12 The Plan shall be modified to address any remaining concerns raised by the Acton Water Supply District (AWD) and AWD approval of the Plan shall be submitted in writing prior to Plan endorsement.
- 3.2.13 All fire hydrants and fire alarm call boxes shall be installed in accordance with the specifications of the Acton Fire Department (AFD) and AFD approval of the Plan shall be submitted in writing prior to Plan endorsement.
- 3.2.14 Unless directed otherwise by this decision, the definitive plan shall be modified to comply with all requirements of the Rules, and shall address all departmental comments received by the Board in a manner that resolves any concerns raised therein to the satisfaction of the Board.

3.3 CONDITIONS

The following conditions shall be binding upon the Applicant and its successors and assigns. Failure to adhere to the following conditions shall be reason to rescind this subdivision approval pursuant to MGL Ch.41, S.81-W. - 3.3.7 The Applicant shall be diligent in complying with the erosion and sediment control plan. The Applicant shall not cause or permit the runoff of water or erosion that results in the flooding or siltation of any street, way or drainage facility owned or maintained by the Town. If such runoff or erosion occurs, the Board may order the immediate cessation of

any excavation, construction and building activities until the conditions that caused the runoff or erosion have been corrected.

- 3.3.8 As required under Massachusetts General Laws, Ch. 60, S. 23, the Plan approved hereunder shall not be recorded with the Middlesex South District Registry of Deeds or the Land Court unless it is accompanied by a municipal lien certificate, indicating that all taxes, assessments, and charges then assessed against the land shown on the Plan have been paid in full. If not paid at the time of endorsement of the Plan, the Board will add a Plan note to remind the Registry of Deeds or the Land Court of this legal requirement.
- 3.3.9 Prior to endorsement of the Plan, the Applicant shall provide the Board with a performance guarantee in accordance with Section 6 of the Rules.

- 3.3.12 The installation of water service lines shall be made in compliance with requirements of the Acton Water Supply District.
- 3.3.13 Upon completion of all work as shown on the Plan, and before the final release of any performance guarantee, the Applicant shall submit an as-built plan showing the road pavement, drainage, utilities, and other improvements within or related to the street, and survey monuments for the entire Subdivision; a surveyor's bound certification; and a certification from a registered engineer that the work has been completed according to the approved Plan.
- 3.3.14 This Decision, the endorsed Record Plan, the Declaration, and the Restrictive Covenant if any, shall be recorded at the Middlesex South District Registry of Deeds or the Land Court prior to the issuance of a building permit on the Site.
