Acton, MA 01720

Re: Tower Type at 5 Craig Road

Dear Mr. Bettez,

It has come to our understanding that the Board has recommended that SBA Towers consider a stealth type tower called a "silo." This type of tower is not one that we would allow on our property due to the size of such as we understand it is over 20' in width. We have worked with SBA to move the site on our property due to various issues in the past and in doing so, there compound depth has been decreased to accommodate this new location and to allow enough space for our trucking business to continue unimpeded and to allow access to the loading docks while at the same time SBA has enough space of its own.
