Importance: High
Attachments: Maglothin Analysis.ppt; Clearwire Data Supplement 4.1.2010.pdf

All,

Unfortunately, I will be unavailable to attend the meeting, since I am traveling to DC Tuesday to support the Department Homeland Security with border security planning. Please consider the following and attached documentation in your technical discussions.

It is my finding the proposed 7244 tower does not cover areas not already covered by other planned towers as evident in viewshed analysis (see Maglothin Analysis.ppt). Analysis was based on locations and heights reported in the attached "Clearwire Data Supplement 4.1.2010.pdf" and 10m NED DEM.
