Subject: follow up on Goal 7 discussion last week
Date: Wednesday, September 28, 2011 12:18:30 PM

I received a comment in the Goal 7 draft implementation program that I think is important to considering (how we say it is as important as what we say):

1. "Work to do more with less".

Comment: There should be right there a nod to all the efforts that already have been made and are being made to do exactly that.

My observation: A clarification that this needs to come primarily from evaluation of priorities and improvements in technology infrastructure; not from trying to simply squeeze more out of the Town's employees. While there may an occasional bad apple, that cow has been dry for many many year.
