Roland,

I hope you had a good weekend. Here is one of two emails in regards to the Acton 2020 matrix that you passed out at the last PB meeting.

Thanks,  
Roland

Subject: Acton 2020

I was looking over the Acton 2020 matrix and noticed one of the points is to encourage window shopping in the WAV or may have been the Village areas (assuming that some point in the future that Kelly's Corner becomes more like WAV) and I feel that should be removed because the small business's in WAV need people to buy and not just window shop. So you may want to bring that up to Margaret.

Two more items: 1. was to increase open space in the village areas which seems counter intuitive if you are looking to increase the density to encourage more walking, shopping and other activities.

2. White roofs? I don't get that one at all. Yes it would lower electric bills by keeping the buildings cooler in the summer, however since we live in the Northeast a grey or black roof helps heat the building in the Fall, Winter and Spring time. Plus there is no way that I would every have a white roof on my house and I am sure most citizens would feel the same.
