Not to create or imply any "deliberation" as defined under the OML, here are some related facts:

average restaurants per 1000 people in the US is 2.
average restaurants per 1000 people in Massachusetts is 2.8

Roland,

In regards to the need for more restaurants in town (Acton 2020). Below is a list I compiled and I might be missing some. I breaks down to more than one per 1,000 residents. I don't think we really need more....
