I sent you a bad link that tried to access a file on a local hard drive, not the web...

Here's the right link:

http://acton2020.info/about_acton_2020.shtml

I've just updated the website to reflect the post Town Meeting shape of things, and I re-encountered this graphic:

[bad link removed]

This implies we once understood that we would be getting the approval of the BoS. Now, maybe we did when they voted to approve the warrant article with the G&Os. But maybe there would be some power in getting back with them after the Planning Board vote, as part of the launching of the implementation committee. Might be worth discussing pros & cons at our open meeting on the 27th.
