Re: L & S Builders Corp.  
Lot 4A - Ayer Road  
DEP File No. 85-291  
Project No. 1142

**RECEIVED**

**MAR 28 1991**

**ACTON CONSERVATION COMMISSION**

Dear Commission Members:

On behalf of our client, L & S Builders Corp, this office respectfully requests an amendment to the Orders of Conditions for Lot 4A to reflect the enclosed revised plan.

The plan has been revised to reflect the house layout requested by the potential buyer. As you will note, the driveway has been shifted to the westerly side of the sewage disposal system. The driveway will be located approximately 41' from the edge of wetlands and will blend into the grading required for the sewage disposal system. This grading will remain 25 feet from the edge of wetlands. Haybales shall be utilized to prevent any siltation from entering the wetlands and to delineate the limits of construction.

Please contact this office should you have any questions regarding this revision.

Thank you for your on-going cooperation in this project.

Very truly yours,  
DAVID E. ROSS ASSOCIATES, INC.
