Subject: Nice presentation, and our support

To the West Acton Sewer Action Advisory Committee,

We were at the meeting tonight, and we just wanted to say "thank you" for the excellent and informative presentation. All of our questions were answered, and we were very impressed by the level of thought and care that has been put into this project so far.

We would also like to unequivocally voice our support for this project, and to say that we will definitely be on board should it come to fruition. Our house is on a 2/10 of an acre lot, and our septic system is about 20 years old, so we have been worrying about the future.

Many thanks, and once again, please know that as potential connectors you have our full support!
