**Subject:** West Acton Sewer Project

To: Whom it May Concern

I'm writing to encourage the Town of Acton to invest in the West Acton sewer project. I'm the manager of Wellness at Villageworks, a West Acton-based business opened in 2015. We are a workspace for wellness professionals and are home to nine independent small businesses.

I constantly hear positive comments from our tenants and their clients about the growth of the West Acton Commercial District over the last few years. In fact I credit our success to being part of this walkable community of independent businesses. The walkable village model is attracting visitors from nearby towns and is a lure to young families moving out from the city.

There are opportunities to increase the impact of this walkable, commercial center. Investing in a new school building is one way, adding more high quality restaurants and food options is another. In order to do both of these things, West Acton needs sewer services.

We are now at a key juncture. There is a lot of momentum and excitement in West Acton, but in order for it to reach its potential as a vibrant, walkable commercial district, and attract more high quality businesses, we need sewer services. I hope Acton seizes on this opportunity to support West Acton in realizing its potential.

Thank you for your time,  
Lucy Goldstein
