Subject: RE: Request for Quotes
Attachments: TownOfActonMA-WoodProcessingFacility-Proposal-6-12-2014.pdf

Mr. Mutch,

The proposal that you requested is attached.

The proposal work scope technically correctly fulfills the requirements outlined in your RFQ, and the associated fee quote reflects the required work scope.

Please note that a much simpler, less expensive approach (but not technically in conformance with your RFQ) would be to conduct a half-day site visit to briefly measure sound levels with and without the wood processing facility operating, compare the sound levels and evaluate per MassDEP criteria, and then write a brief report. My fee for the reduced scope would be approximately half the fee listed in my attached proposal.
