**Subject:** Section 106 Notification of New Comment- Email ID #511236

This is to notify you that a new comment has been added to the following filing:

Comment Source: EnviroBusiness, Inc. d/b/a EBI Consulting (EBI# 61133247)

Comment Date: 09/13/2013

Comment Text: The Wright-Holden Farm is considered eligible for listing under Criterion C "as a rare surviving example of a Federal Period farmstead, intact with period farmhouse". The fields are noted as one of "the few agricultural landscapes of open field along theRoute 2 corridor"(inventory form uploaded to filing). The primary views of the district are along the east-west axis of the Route 2 corridor.

The Wright-Holden Farm district, 225 acres, consists largely of open fields and wooded land but does havemodern intrusions. It is divided in half, north-south, by Union Turnpike which has become a 4-lane divided highway with moderate to heavy high-speed traffic. It is divided east-west by School St and Wetherbee St, local 2 lane roads, that are lined withmodern utility poles/lines. A large portion at the southeast area of the district is utilized as soccer fields with a long narrow gravel parking lot running along School St.

The project site is within the existing industrial park located along the primarily wooded southern boundary of the district. The proposed 100-foot tall monopole will be designed as a pine tree with branches reaching a top height of 110 feet. The Federal Period house is located at the northeast portion of the district a 1/2 milefrom the project site on a 20 acre parcel with several modern buildings. Due to separating distance and the stealthing of the monopole as a tree it will not be salient from the period farmhouse. The location of the monopine to the south of the districtboundary beyond the tree line will not interfere with nor detract from the open views of the fields. Due to the presence of modern intrusions, the stealth design of the tower and its location to the south of the district (not in line with the primary viewing axis), the proposed monopine will have no adverse effect on the district.

The Federal Communications Commission (FCC) has received your Submission Packet for the referenced tower construction project. You provided this documentation as part of the process to comply with Section 106 of the National Historic Preservation Act and the implementing regulations of the Advisory Council on Historic Preservation (ACHP); Protection of Historic Properties (36 CFR Part 800). That formal process has been streamlined by the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA).
