

CONSERVATION COMMISSION

P. O. BOX 236

ACTON, MASSACHUSETTS 01720

March 31, 1976

Board of Selectmen
Town of Acton
Acton, Mass.

Dear Board Members:

Upon your request the Conservation Commission declared the replacement of the Arlington Street culvert (sta. 57+55+) to be an emergency. The vote was taken at the Commission's March 31, 1976 meeting. The replacement should not substantially alter existing drainage characteristics of the area.

The Commission requests the Engineering Department to inform the Commission of their progress and make an informal report upon completion of work. There is no need to file a Notice of Intent for the work.

For the Commission:

Bruce M. Stanski

Bruce M. Stanski
Commission Assistant

Engineering Department

TOWN OF ACTON

Inter-Departmental Communication

DATE: March 26, 1976

FROM: Board of Selectmen

TO: Members of the Conservation Commission

SUBJECT: Collapsed Culvert on Arlington Street

Please be advised that we have been informed by the Town Manager and the Town Engineer that a metal arch culvert at Arlington Street station 57 + 55₊ has collapsed. Due to the emergency nature of this situation we have authorized immediate repairs, thus foregoing the usual procedure of filing a notice of intent and holding a public hearing. We wish to request at this time the approval of the conservation commission for this course of action so that the repairs can be completed in the shortest possible time.

By order of the Board of Selectmen

Stephen A. Jones
John H. Gardner
Alfred F. Ginnbauer
