November 2, 2015

Dear Bicycle Commuter:

Due to large snow fall amount, the snow removal during the last winter was quite difficult and some of you had trouble accessing your bike lockers. We apologize!

With the MBTA Station construction project still in effect during the coming months, there remains limited space to remove and place the snow.

If you decide to use your bike locker during the upcoming winter months, please be understanding if there are any delays or temporary difficulties with snow removal.

The Town's crews will try to do their very best with plowing and snow removal for the entrances to the bike locker. Snow removal equipment for use around the bike lockers is limited to smaller machines; heavy snowfalls will take more time to clear.

And, as always, keeping the main roads open for traffic and emergency responses remains the top priority.

We apologize in advance for any inconvenience you may experience. If you have any questions, please do not hesitate to contact the Planning Department.

Thank you!

Sincerely,

Kim Gorman  
Secretary  
Planning Department
