

EXHIBIT G

**Municipal Subscription Form for Collective Procurement Contract
for the Provision of: Green Municipal Aggregation Consulting Services**

The municipal corporation named below, by action of its duly authorized contracting authority, hereby declares its engagement of the provider of the above listed services. This engagement is made subject to the terms and conditions of the contract cited below, entered into by the Metropolitan Area Planning Council (MAPC), pursuant to M.G.L. c.7 s.22B, as a collective procurement on behalf of the 101 municipalities and their subdivisions represented by the Metropolitan Area Planning Council, and subject to applicable Massachusetts municipal procurement statutes, to which MAPC certifies compliance.

The municipality acknowledges and accepts that:

- 1) The municipality plans to utilize the default electricity supply of the aggregation to pursue additionality. Additionality means that municipality's actions will result (directly or indirectly) in adding new renewable generation to the New England electricity grid above a business-as-usual scenario. Qualifying additionality measures are: using at least 5% more MA Class I Renewable Energy Credits in the default supply than the MA Renewable Portfolio Standard requires OR utilizing the default supply as part of a strategy that will add new renewable generation to the electric grid.
- 2) In its Electricity Service Agreement with the supplier, the municipality will direct the supplier to include a fee of \$0.000025/kWh in its supply rate, to be paid by the electricity supplier to MAPC, for the first year of a municipality's supply contract.
- 3) The agreement to consume and to provide the subject services is made by and between the municipality and the contractor, and that MAPC is not a party to nor liable for any obligations arising from any consumptive transactions.
- 4) The municipality alone is responsible for payment to the provider for any services rendered through the contract.
- 5) The municipality alone is responsible for obtaining, from the provider, any and all bonds, insurance and other certificates required for completion and consummation of the contract, which were not provided as part of the bid or proposal.
