Re: Ayer Road Lot 6A  
L & S Builders Corp.  
DEP File No. 85-293

Dear Commission Members:

On behalf of our client, L & S Builders Corp., this office respectfully requests an amendment to the Order of Conditions for Lot 6A on Ayer Road. Please find enclosed two copies of the revised site plan, plan number M-180-B. One of the prints indicates the previously approved driveway location to clarify the revisions.

The proposed revision is the relocation of the driveway to the westerly side of the sewage disposal system. The proposed driveway is within the 100 foot buffer zone, approximately 42 feet from the edge of wetlands. No grading will occur within 25 feet of the wetlands or within the wetlands resource area itself.

As this portion of the driveway is common with the hammerhead lot 5A, these revisions will be presented to the Planning Board and the Engineering Department for review.

Please contact this office should you have any questions regarding this plan revision.

Very truly yours,  
DAVID E. ROSS ASSOCIATES, INC.
